U. S. DEPARTMENT OF AGRICULTURE,

WASHINGTON, D. C.

BUREAU OF PLANT INDUSTRY
Fruit and Vegetable Crops and Diseases

o p o 8-3591

BUSINESS INFORMATION

TERMS. Cash with order, or one-third with order and balance C. O. D. All prices f. o. b. Laurel, Delaware. Inform us whether to ship by express, freight or parcels post.

PACKING. We make no extra charge for packing.

PLANTING SEASONS. February, March, April, October, November, December and January if weather permits.

PLANTING PLAN. No matter how large or how small the grounds, a plan should be worked out first. If this becomes difficult to you, send it to us, we will be only too glad to help you.

PERENNIALS

Our Perennials were sown in early spring and transplanted in July. This assures you of young and vigorous plants.

All Perennials unless otherwise stated are ten cents each.

Varieties marked * are especially suitable for rock gardens.

***ALYSSUM Argenteum.** Neat for the rockery or low border. A mass of bright yellow in June with silvery foliage. 12 inches.

AQUILEGIA Mrs. Scott Elliott. A dependable and recommended strain of fine long spurred Columbine. A pleasing mixture of pink, red, buff, deep purple, blue, yellow and white. The quality of this strain is kept at a high standard.

***AUBRIETIA Hendersonii.** Rich, deep lavender. Because of their neat, compact foliage and their splash of color which they give in the spring, Aubrietias are highly recommended for the rock garden and rock walls.

BAPTISIA Australis (False Indigo). Large, Lupin-like spikes of clear deep blue. Blooms profusely during June. Makes a dense bush that is fine for a high border. The foliage is attractive.

***BELLIS (English Daisy).** Mixed. Excellent for bedding or for borders. 6 inches.

BUDDLEYEA Magnifica (Butterfly Bush). This colorful shrub which acts as a herbaceous plant is very pretty. Long lavender spikes, lilac scented, cover the 5-foot bush during the summer. 2 yr. No. one plants, 30c each.

***CALLIRHOE Involucrata.** One of the best trailers for a large rockery. The plant is covered with rich crimson Poppy-like flowers all summer.

CAMPANULA Calycanthemum Mixed (Cup and Saucer). The flowers have a ring at the base of the ball-shaped flowers giving the appearance of a cup and saucer. June and July bloomers.

CARNATIONS Vienna Market. Large flowered variety with a delicate spicy fragrance and a high percentage of doubles. Best treated as a biennial. A blending of bright colors in mixture.

CATANANCHE Coerulea. Dainty sky-blue flowers of the everlasting type that are pretty for cutting and drying. 12 inches.

COREOPSIS Lanceolata Grandiflora. A showy brilliant golden yellow for the border. Makes an excellent cut flower.

***CRUCIANELLA Stylosa.** A fine creeper for the rockery where it forms a mass of deep green foliage. The flowers are pink ball-shaped blooming throughout the summer.

DELPHINUM Belladonna "Cliveden Beauty." All who have seen this fine, improved variety were impressed by its usefulness and attractiveness as a cut flower. Extra large flowers of vivid light blue on strong well developed stems.

DELPHINIUM Chinensis. Attractive, finely cut foliage. Flowers are bright, clear colors; recommended for cutting.

***DICENTRA Eximea (Plumy-Leafed Bleeding Heart).** This is one of the most attractive plants for the border or large rockery. The finely cut foliage always blends well with other plants, and all summer it is covered with drooping, cherry-red heart shaped flowers. 15 inches. Blooming size clumps 25c each.

DICENTRA Spectabilis (Bleeding Heart). The old favorite that is such a show in the border. Blooms in June. Blooming size clumps, 30c each.

DIGITALIS Gloxinaeflora (Foxglove). Mixed. Nothing gives quite the grace and color that the Foxglove does to the border. Stately spikes 3 to 4 feet tall during early summer.

GAILLARDIA Grandiflora Superba. A choice selected strain of fine hybrids with a blended mixture of colors running from deep orange through red and yellow to light straw. One of the best perennials for summer blooming. 2 yr. blooming size, 15c each.

***GEUM Lady Stratheden.** The popular and pretty golden yellow. The dainty flowers are borne on erect 18 inch stems in July.

GYPSOPHILA Paniculata (Baby's Breath. The old favorite which makes a grand show in the border during June. Splendid for cutting.

HESPERIS Matronalis (Sweet Rocket). Pretty Phlox-like blossoms in June. Showy in the border. Red and white mixed. 2 feet.

HIBISCUS (Malloes). Pink and white. Tall and stately. Early summer. 5 feet. Large clumps 50c each.

HOLLYHOCK. Tall and stately plant coming in many colors. 2 yr. No. 1 plants, 15c each.

***IBERIS Gibraltarica (Lavender Candytuft).** Compact, close growing plants covered in June with a mass of mottled lavender and lilac blooms.--Very pretty. 8 inches.

***LINUM Flavum.** Particularly showy in the border with a shower of bright yellow flowers in June. 12 inches.

LOBELIA Cardinalis (Cardinal Flower). Forms stately spikes of the most brilliant scarlet 3 feet high. One of the finest natives. Partial shade. July until September.

LYCHNIS Chalcedonica (Jerusalem Cross). The old favorite with flower heads of fiery scarlet. 18 inch.

JAMES NURSERY COMPANY, LAUREL, DEL.

LUPINUS Moerheimi. Large full spikes of a pretty shade of bright rose.

***MYOSOTIS Alpestris Blue (Forget-Me-Not).** A fine variety for bedding coming into bloom about the time Tulips are out. Luxurious foliage with a bright display of flowers. 8 inches.

PHLOX. Mixed. Tall orchid and semi-tall white with pink eye. 2 yr. No. 1 plants, 20c each.

PENSTEMON Torreyii. Long, swaying spikes of cardinal red rising three feet above the varnished deep green foliage.

PEONY Avalanche. Large cream-white flowers of rose type. Delightfully fragrant. Strong grower and free bloomer. Late. Strong 3 to 5 eye division, 25c each.

PEONY Berloiz. Very large, compact rose type. Light carmine rose, petals tipped silver. Tall, profuse bloomer. Late midseason. Strong 3 to 5 eye division, 25c each.

PEONY Delicatissima. Large, rose type, fragrant. Very strong tall grower, fine habit, free bloomer. Extra good keeper and shipper. Midseason. Similar to Floral Treasure. Strong 3 to 5 eye divisions, 25c each.

PEONY Festiva Maxima. Very large, globular, rose type. Pure white center flecked crimson, outer petals sometimes faint lilac on first opening. Very tall, strong, vigorous grower. The most popular early white cut-flower variety. Strong 3 to 5 eye divisions, 25c each.

PEONY Louis Van Houtte. Medium size, semi-rose type. Deep carmine rose, tipped silver with fiery reflex. Very brilliant coloring. Fragrant. Medium height and habit. Late. Strong 3 to 5 eye divisions, 25c each.

(Any ten Peonys of one variety \$2.00.)

PHYSOSTEGIA Virginica (Obedience Plant). A useful summer blooming border plant with 2 foot spikes of bright pink.

PLATYCODON Grandiflorum (Balloon Flower). Large, open, Campanula-like flowers on graceful 2 feet stems. At its best during June and July. Blue and White mixed.

POLEMONIUM Coeruleum. A free blooming border plant with spikes that are covered with bright blue flowers that have golden centers. 18 inches.

PYRETHRUM Huntington's Choice Doubles. The seed for these choice plants were selected from a block of 100% doubles in a complete range of colors such as deep crimson, bright scarlet, rose, pink, coral pink, and white. Many will show full round heads, others are fluffy carnation-type, and some are crested like giant double Cosmos. We have compared this strain with the best from England and highly recommend it for its superior quality.

RUDBECKIA Grandiflora. Flowers of golden yellow for the border. 4 feet.

SALVIA Pratensis. A colorful species for the border. Waving spikes of rich purple in June. 30 in.

SCABIOSA Caucasica. Lacinated petals of rich lavender blue with a crested center of light clear blue. One of the finest for cutting. Slender stems two feet high. Deserves a place in the border.

JAMES NURSERY COMPANY, LAUREL, DEL.

***SEDUM Spectabile.** An upright variety that is widely used as a bedding plant. Light green foliage, and broad flower heads of bright pink in the summer. 12 inches. This desirable plant may be bought in 3 year clumps at 25c each.

SIDALCEA Rosy Gem. Bright rose colored semi-dwarf form. A compact mass of color. 18 in.

STOKESIA Cyanea (Stoke's Aster). Extra large Aster type flower that is profuse in bloom. It is a beautiful sight in the border during June and July. Color blue. 18 inches.

SWEET PEAS (Mixed). A hardy vine blooming all summer.

***SWEET WILLIAM.** One of the most popular flowers because of its mass of bright color that it gives to the early summer border. Mixed. 8 to 12 inches.

THALICTRUM Dipterocarpum. This is one of the most delightful perennials for the border in the entire list. When known it is always in demand. Delicate, lacy foliage, with erect 3 foot stems bearing branches covered with pearl buds opening to lavender and yellow flowers. June blooming.

TRITOMA Pfitzeri (Red Hot Poker). Rich scarlet blooms borne on stems 3 feet high, very attractive for mass plantings or planting singly in the border. In bloom from August to October. 2 yr. No. 1 plants 20c each.

VALERIANA Coccinea. A pretty addition to the border. During the summer the pretty spikes are very showy. Mixed. 2 feet.

VERVENA VENOSA. This South American native is hardy. It makes a very desirable edging plant being neat of habit, and the flowers are a violet-purple. 12 inches.

YUCCA Filamentosa (Spanish Bayonet). A fine evergreen foliage plant with stately spikes covered with drooping bell-shaped flowers of pure white in the summer. 3 feet.
